SCIENTIFIC PROGRAM

ARTHRO
LATARJET
TRAINING

november
19-20 2019

CHAIRMAN:
Dr Laurent LAFOSSE
Annecy - France

● WELCOME

Dear friends,

My team and I are very happy to welcome you for this course organised by Alps Surgery Institute and DePuy Synthes Institute. Shoulder surgery is a very entertaining discipline requiring skill, creativity and rigor. There's always something new to discover, always improvement to manage. The motion is passion, and passion is nothing if not shared!!

Thank you to the great international faculty, thank you to my team and thank you to DePuy Synthes for sharing with us the shoulder passion. That's what this training is talking about, for the best of our patients. We will do our best to make these days enjoyable and beneficial for your practice.

*Amitiés,
Laurent LAFOSSE, MD*
Course Chairman - Clinique Générale d'Annecy
