Shoulder Arthroscopy Course

17th - 19th November 2022 Annecy, France

Introduction

Dear Friends,

What a pleasure it is to welcome you again to Annecy for the 15th Stryker ASI Shoulder Arthroscopy Course. It is time to debate and discuss during lectures, patient examinations, live surgeries, hands-on workshops and clinical cases.

Shoulder surgery is a very entertaining discipline requiring skill, creativity and rigor. There are always new things to discover and improvements to be made. Here in Annecy we are motivated by a passion for achieving these goals, a passion that we know is nothing if not shared!

Thank you to our great, international faculty for bringing their expertise, thank you to our team in Annecy, thank you to Stryker and thank you to YOU for coming in-person and for sharing knowledge and passion for shoulder arthroscopy with us!

We will do our best to make these days enjoyable and beneficial for your practice.

Welcome to Annecy for the the Stryker-ASI Shoulder Arthroscopy Course!

We do what's right

Accountability
We do what we say

People
We grow talent

Performance
We deliver

A surgeon must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that surgeons be trained in the use of any particular product before using it in surgery. The information presented is intended to demonstrate the breadth of Stryker product offerings. A surgeon must always refer to the package insert, product label and/or instructions for use before using any Stryker product. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your Stryker representative if you have questions about the availability of Stryker products in your area.

You specialise in your patients.

We specialise in you.
