+ Advanced Healing in the shoulder course

16-18 May 2024

Preliminary programme (Version 3, 19.04.24)

Co-chairs: Dr. Laurent Lafosse,
Dr Thibault Lafosse, France

Alps Surgery Institute, Annecy

Course description

The Smith+Nephew Advanced Healing Course is co-organised with the Alps Surgery Institute (Dr. Laurent Lafosse and Dr. Thibault Lafosse), in Annecy - France, to give delegates the opportunity to access the best education in shoulder surgery. This course is focused on Rotator Cuff repair with Advanced Healing solutions: REGENETEN[®], HEALICOIL[®] and HEALICOIL REGENESORB[®] and will also cover shoulder instability and advanced stabilisation techniques including Arthroscopic Latarjet and Bone Block.

With lectures, live case discussions, live surgery and sawbones workshops, delegates will learn, practice techniques and enhance their knowledge for complex shoulder pathologies

Accreditation

Accredited by the Royal College of Surgeons of England

Co-chairs

Dr. Laurent Lafosse
France

Dr. Thibault Lafosse
France

Invited faculty

Prof. Florian Haasters
Germany

Academy Online

As online content is an integral part of the course, you will be pre-registered on our online Global Medical Education learning platform "[Smith+Nephew Academy Online](#)".

Please complete your profile to access the assigned course modules associated with this full course. After completion of the course with full attendance, this is where you will have access to feedback surveys and certificates

Course Information

Learning objectives

- Describe and perform partial and full thickness repair with ADVANCED HEALING Portfolio
- Select the right technique for the right patient in rotator cuff and instability repair surgery by integrating optimal treatment algorithms
- Identify potential technical challenges and demonstrate skills to overcome them
- Outline and apply all steps of a complex arthroscopic Latarjet or bone block procedure

Participant profile

- Orthopaedic Surgeon with 5+ years experience in shoulder arthroscopy and who is currently performing 60+ rotator cuff repairs and 30+ shoulder instability repairs annually
- Strong interest and experience in shoulder repair, with a desire to develop skills in the arthroscopic approach of rotator cuff and instability repairs
- Must have an advanced level of English language skills
