+ INSPIRE Advanced healing in the shoulder

Date: 4-6 June 2026

Programme

Chairpeople:

Dr. Laurent Lafosse

Dr. Thibault Lafosse

Annecy, France

Course description

The Smith+Nephew Advanced Healing Course is co-organised with the Alps Surgery Institute (Dr. Laurent Lafosse and Dr. Thibault Lafosse), in Annecy - France, to give delegates the opportunity to access the best education in shoulder surgery. This course is focused on Rotator Cuff repair with Advanced Healing solutions: REGENETEN[®], HEALICOIL[®] and HEALICOIL REGENESORB[®] and will also cover shoulder instability and advanced stabilisation techniques including Arthroscopic Latarjet and Bone Block.

With lectures, live case discussions, live surgery and sawbones workshops, delegates will learn, practice techniques and enhance their knowledge for complex shoulder pathologies

Accreditation

Accredited by the Royal College of Surgeons of England

Chairpeople

Dr. Laurent Lafosse
Annecy, France

Dr. Thibault Lafosse

Academy Online

As online content is an integral part of the course, you will be pre-registered on our online Global Medical Education learning platform "[Smith+Nephew Academy Online](#)".

Please complete your profile to access the assigned course modules associated with this full course. After completion of the course with full attendance, this is where you will have access to feedback surveys and certificates

Course description

Learning objectives

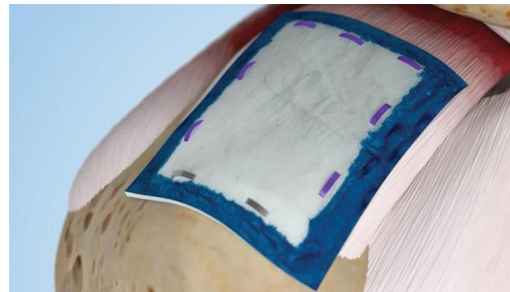

- Integrate new surgical strategies and insights from expert lectures and live surgery demonstrations to enhance management of complex shoulder pathologies
- Implement patient selection treatment algorithms for the surgical management of patients with RTC pathology and shoulder instability
- Identify potential technical challenges in rotator cuff surgeries and shoulder instability treatment through analysis of live surgery

Participant profile

- Consultant Orthopaedic Surgeon with 5+ years experience in shoulder arthroscopy and who is currently performing 60+ rotator cuff repairs and 30+ shoulder instability repairs annually
- Strong interest and experience in shoulder repair, with a desire to develop skills in the arthroscopic approach of rotator cuff and instability repairs
- This course will be conducted in English, therefore a good command of the language is essential
